

AX S/SKIRT/100/WHITE

Skirt Pendant

by Manuel & Vanessa Vivian

Skirt takes inspiration from the world of fashion. The result is a collection of pendant lamps with a unique and elegant design, given by its sinuous shapes. Skirt's refined design allows it to adapt to different types of environments, from domestic to contract and hospitality. It's lampshade is composed of a fabric that also has sound-absorbing properties, which allow it to reduce noise by up to 53%, thanks to its Equivalent Absorption Area which reaches a maximum of 3.55. Further, the shade has a double curtain effect in TREVIRA CS fabric, a fire retardant textile. Skirt is available in a variety of sizes and finish options.
