

RO S/SQUIGGLE/H11/3000K/WHITE

Squiggle Double Linear Pendant

by Paolo Rizzatto

Inspired by the "Neon structure" by Lucio Fontana for the 9th Triennale of Milan, Squiggle is a suspended tubular exoskeleton which contains an LED strip. A sequence of irregular hexagon-shaped holes allow light to escape the metal structure, generating varying geometrical shapes: broken curved lines, the infinity symbol, and concentric rings of various sizes.
