NE A/SPIGOLO/2700K/BLACK

Spigolo Wall

by Studiocharlie

The SPIGOLO design is based on an extruded and tubular aluminium structure, connected with moulded ABS joints. Thanks to the joints, enabling the profiles to house LED sources, one can rotate 360 degrees in order to produce a directional direct or indirect lighting, screened by an opaline diffuser in polycarbonate. The wall version creates ambience in a versatile and a comfortable way. LED sources are dimmable and with warm tone.
