

Golden Brothers - Ron

by Stefano Giovannoni

Designed by Stefano Giovannoni, Golden Brothers are a family of lamp-characters. Made from polycarbonate with a mirrored gold finish, the Golden Brothers reflect soft light on their body which enhances the plasticity and fluidity of their silhouette. Each of the Golden Brothers assume different postures, creating an animated setting when grouped together on a table or any corner of the house. This family of rechargeable battery-operated LED lamps is equipped with a soft touch switch and includes a charging brick and cable.
