

Linescapes System

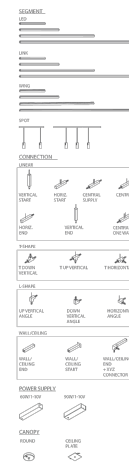

by Nemo

Linescapes is a modular system that, installed both on the ceiling and on the wall, completely changes the approach to direct and indirect lighting. Highly performing both in the linear and spot version. The singular modules are connected by quick moulded polymer connectors, which enable rapid jack installation and a 360 degree rotation. The different elements allow the composition of continuous lines and edges, with a luminous efficiency and an excellent diffusion degree, through an opaline diffuser in polycarbonate. The system has been studied to provide user friendly maintenance. Nemo has efficiently solved the problem of replacing LED built-in sources, whereby the single lighting elements can be easily changed. Please refer to The Linescapes System Collection brochure for more information.

Supplier	Nemo
Country	Italy
SKU	NE S/LINE/SYS/UP/VERT/BK
Finish	White

Product Dimensions

Materials	Aluminium + PC + ABS	IP Rating	IP20
