

AX A/MANIFESTO/2700K/EARTH RED

## Manifesto Wall Light

by Timo Ripatti

Manifesto is a creative play of shapes and paths of light. With a clear neoplasticist influence, the fixture is characterized by stylistic audacity and aesthetic balance. When the light is off, the lamp manifests itself as an abstract sculpture affixed to the wall. When the light is on, it is surrounded by a luminous halo which traces the boundaries of manifesto's form, enhancing its impact. Designed by Timo Ripatti and developed by Axolight.
