

DT REED 850

Half Reed Pendant

by David Trubridge

Reed was inspired by the simplicity found within nature and from observations David Trubridge made of how bunches of corn and rushes are gathered with strings around the middle. The design remains unchanged from when it was first made by David by hand. Comprised of environmentally sustainable bamboo slats and hoop pine plywood rings. Takes 1 x E27 60w Max globe. Made in New Zealand.
