AX/PARALELA - 001

## Paralela Lighting System

by Nahtrang Studio

Paralela is a modular lighting system created by Nahtrang Studio from Spain. The aim was to turn light into a tangible decorative element. This led to the design of borosilicate glass cylinders connected by Nylon PA12 connectors. These cylinders use gravity to stay in place and create a neat arrangement that interacts visually with light, forming a beautiful display. Paralela is a versatile product line available in pendant (both horizontal and vertical), table lamp, floor lamp, and sconce versions. It comes in various sizes and five colors, offering a range of options for different spaces. Download the product brochure to view the full range of options and specifications. Orders can be placed by showroom appointment.
