

ILTI ZIRKOL - 000

Zirkol Lighting System

by Ilti Luce

The ZIRKOL suspension lamp family evolves from the classic round luminaire into various shapes. It balances design and lighting, making it essential in architecture. Each model comes in different sizes and finishes, using a unified aluminum profile for a consistent aesthetic. Suitable for residential and public spaces, ZIRKOL offers single downlight or double uplight/downlight emission for optimal visual comfort. The new ZIRKOL ACOUSTIC pendant lamp combines lighting with acoustics, featuring a sound-absorbing circular panel covered in grey recycled polyester fabric for a comfortable atmosphere. Download the ZIRKOL brochure below to see the full range. Orders by showroom appointment.
