

AX A/PARALELA/1/WHITE

## Paralela 1 Wall Light

by Nahtrang Studio

Paralela is a modular lighting system created by Nahtrang Studio from Spain. The aim was to turn light into a tangible decorative element. This led to the design of borosilicate glass cylinders connected by Nylon PA12 connectors. These cylinders use gravity to stay in place and create a neat arrangement that interacts visually with light, forming a beautiful display. This version of the Paralela combines two LED elements and a connector to create a single wall light. Available in white or grey finish.
