

DT HUSH - 001

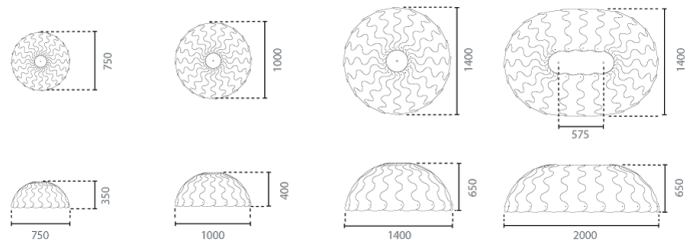

Hush Acoustic Pendant

by David Trubridge

Hush, created by David Trubridge in partnership with PLN Group, is an award-winning collection of acoustic lights designed to reduce noise and reverberation, fostering a more peaceful environment. Install Hush above individual desks, clusters of desks, meeting tables, or focus spaces to soften sound and reduce distractions. These lightweight, semi-rigid acoustic panels are ideal for minimizing noise in open-plan environments, enabling teams to collaborate effectively and individuals to concentrate without interruptions. Available in four sizes and a wide range of finish options.
