## Lesbo Table Lamp

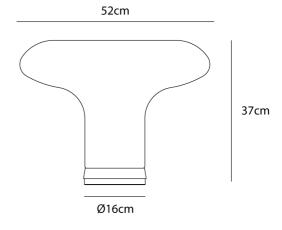

by Angelo Mangiarotti

An icon of 1970s Italian design, the Lesbo lamp is celebrated for its hand-blown mushroom-shaped diffuser. The frosted white glass gently conceals the light source while directing illumination upward, creating a soft, atmospheric glow that highlights the glass's organic beauty. A masterful interplay of form and light, this timeless piece remains a symbol of artisanal craftsmanship and mid-century elegance. Originally designed in 1967 by Angelo Mangiarotti. Made in Italy by Artemide.
