

PH ART ECLISSE - 001

Artemide Eclisse Table Lamp

by Vico Magistretti

An icon of Italian design since 1965, the Eclisse table lamp designed by Vico Magistretti balances avant-garde form with intelligent function. Its revolutionary rotating inner shade, inspired by miner's lamps, "eclipses" the light source to adjust between direct and diffused illumination. Available as a table or wall lamp in painted metal (white/red/orange/yellow) or eco-conscious PVD finishes (black/brass/copper/mirror). The sustainable PVD process uses metal vacuum deposition, eliminating toxic emissions while creating durable finishes. Awarded the Compasso d'Oro (1967) and featured in MoMA's permanent collection, Eclisse remains a benchmark of thoughtful design. Made in Italy by Artemide.

Product Dimensions

Designer	Vico Magistretti
Supplier	Artemide
Country	Italy
SKU	PH ART ECLISSE - 001
Finish	Red

Materials	Steel, technopolymer	Emission	Diffused and direct	IP Rating	IP20
------------------	----------------------	-----------------	---------------------	------------------	------
