

ART LT/ECLISSE/COPPER

Eclisse Table Lamp

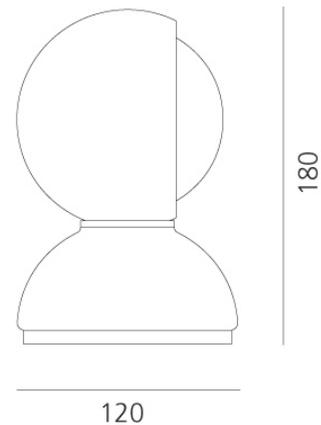

by Vico Magistretti

An icon of Italian design since 1965, the Eclisse table lamp designed by Vico Magistretti balances avant-garde form with intelligent function. Its revolutionary rotating inner shade, inspired by miner's lamps, "eclipses" the light source to adjust between direct and diffused illumination. Available as a table or wall lamp in painted metal (white/red/orange/yellow) or eco-conscious PVD finishes (black/brass/copper/mirror). The sustainable PVD process uses metal vacuum deposition, eliminating toxic emissions while creating durable finishes. Awarded the Compasso d'Oro (1967) and featured in MoMA's permanent collection, Eclisse remains a benchmark of thoughtful design. Made in Italy by Artemide.

Designer	Vico Magistretti
Supplier	Artemide
Country	Italy
SKU	ART LT/ECLISSE/COPPER
Finish	Copper PVD

Product Dimensions

Materials	Steel, technopolymer	Source	1 x E14 LED (Max 5W)	Emission	Diffused or direct via rotating inner shade
IP Rating	IP20
