Altrove Wall Ceiling Frame

by Carlotta de Bevilacqua

A frame creates a volume of coloured light which interacts with the mirror surface on the bottom and with the incisions on the transparent front surface which extract the light. In a game of re- flections, the space is no longer one, instead becoming multiple or simply other, an illusory perception of reality that takes you to a new place, altrove (literally, elsewhere).

Designer	Carlotta de Bevilacqua
Supplier	Artemide
Country	Italy
SKU	ART 1538110A
Size	600mm

Product Dimensions

Materials	Methacrylate, aluminium	Source	76W LED	Colour Temp	3000K
Output	3822lm	CRI	90	IP Rating	IP20
Dimming	Push
