Altrove Wall Ceiling Frame

by Carlotta de Bevilacqua

A frame creates a volume of coloured light which interacts with the mirror surface on the bottom and with the incisions on the transparent front surface which extract the light. In a game of re- flections, the space is no longer one, instead becoming multiple or simply other, an illusory perception of reality that takes you to a new place, altrove (literally, elsewhere).

**Designer** Carlotta de Bevilacqua**Supplier** Artemide**Country** Italy**SKU** ART 1352150APP**Size** 1000mm

Product Dimensions

**Materials** Methacrylate, aluminium**Source** 82W LED**Colour Temp** 3000K**Output** 3248lm**CRI** 90**IP Rating** IP20**Dimming** Push + Artemide APP
