Discovery Pendant

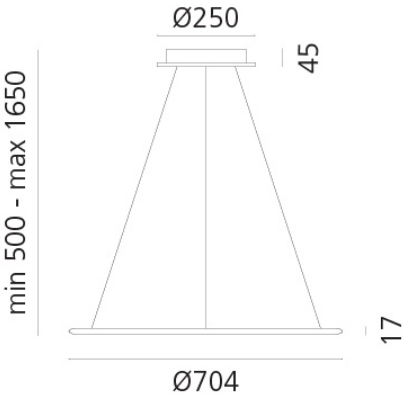

by Ernesto Gismondi

Awarded the Compasso d'Oro in 2018, the Discovery Pendant is an exercise in visual restraint. Unobtrusive and seemingly absent when off, its volume is only revealed once illuminated, as LEDs set within the outer rim inject light into a central diffuser surface. Artemide's patented optical solution delivers a precise light output designed for visual comfort. Suspended in space, the slim form reads as a floating plane of light, well suited to interiors where the fitting itself should recede. The Discovery Pendant is offered in a choice of finishes, with versions for push and DALI dimming or control via the Artemide App. A design by Artemide co-founder Ernesto Gismondi, Discovery reflects the brand's long-standing pursuit of innovation through pure, reductive form. Made in Italy by Artemide.
