Zephyr Hexagonal Pendant

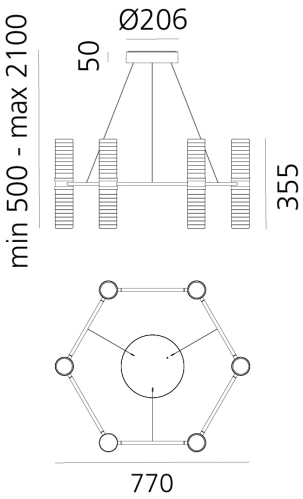

by Carlo Colombo

The Artemide Zephyr is a minimalist and elegant pendant that reinterprets the traditional chandelier with contemporary sophistication. Designed by Carlo Colombo, Zephyr features a modular frame system that enables infinite custom layouts to suit the specific needs of each project. The distinctive modular element comprises a double cylindrical diffuser with a central body that encloses the integrated LED light sources. Through two innovative rings that rotate on the same axis, the system defines the position of neighbouring lighting bodies by precisely positioning the connecting structural elements. The hand-blown glass diffuser creates a horizontal texture for glare-free diffusion. This hexagonal suspension features 55W of power delivering 4093lm of warm 3000K light. Available in black or bronze finish with PUSH/DALI or APP controlled dimming. Made in Italy.

Designer	Carlo Colombo
Supplier	Artemide
Country	Italy
SKU	ART 1781030A
Finish	Black
Version	Standard

Product Dimensions
