Tommy Ceiling Mount Spot

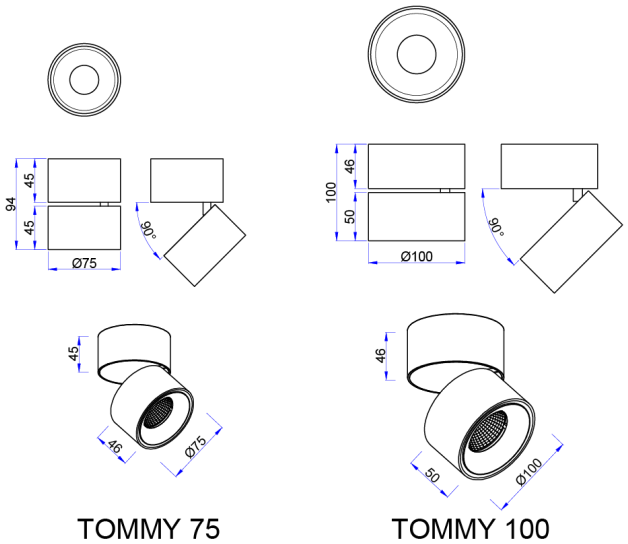

by

The Arcolight Tommy is a ceiling mounted spot light for accent lighting in residential and commercial interiors. A CREE COB LED light source delivers a 38-degree beam at 3000K with 90 colour rendering for accurate presentation of artwork, joinery and merchandise. The rotatable head offers 90 degrees of adjustability, allowing light to be directed where required. The die cast alloy body has a painted finish, and the fitting is phase cut dimmable. The Tommy is available in two sizes to suit different output requirements, in black or white. The Tommy Surface Mount Spot Light is part of the Arcolight collection, showcasing architectural lighting curated by Studio Italia.
