Sata Table Lamp

by Favaretto&Partners

Designed by Favaretto&Partners for Vistosi, the Sata Table
Lamp is characterized by the combination of hand blown Murano
glass accented with a wooden geometric base upon which the
light source rests. The elegant design and beautiful materials
make the Sata table lamp perfect for classic or modern spaces
where wood tones are the central motif or complimentary accent.
Available in white glass with black wood frame or amber glass
with natural wood frame. Sata's design is critically acclaimed,
having been awarded a GERMAN DESIGN AWARD for 2019 as
well as a GOOD DESIGN AWARD in 2017, a global awards
program for design excellence run by the Chicago Athenaeum
Museum of Architecture and Design.
