

Olo Table Lamp

by Hui Lun Li

Table lamp version of the simple and elegant OLO from SEED Design. OLO is unique in that the shade is also the light source. The innovative design embeds an LED within the interior of the rotatable shade, creating an "invisible light source" effect. This also ensures that the light emitting surfaces are kept out of line-of-sight, reducing glare to a minimum. Equipped with a touch dimming button on base for simple operation. Available in a variety of finish options.
