Honice Square Pendant

by Oriano Favaretto

Inspired by the beauty of onyx, the Honice wall light appeals with its high-quality, natural materials and a modern, asymmetrical design. Rectangular natural onyx diffusers of different sizes are vertically and horizontally attached to a frame with curved endings, while the frame itself is made of a band of metal with an opaque gold finish. Light shines upwards and downwards, providing direct and indirect illumination. Its warm tones and precious materials make Honice especially suited to elegant interiors, pairing well with dark wood tones and refined metals. Available in multiple size options. Designed by Oriano Favaretto.
