

## Bul-Bo Wall Lamp

by Fabrizio Pellegrino and Lodovico Gabetti

The Bul-Bo wall lamp is a modern reinterpretation of the classic design by Gabetti & Isola. Originally inspired by Olivetti, the Bul-Bo lamp was known for its playful, ironic, and functional style, symbolizing a "rebellion against norms." Axolight has adapted this iconic design into an LED wall lamp that stays true to its original concept while offering high functionality. It features an adjustable head and stem, and a soft-touch dimmer for versatile lighting options. Available in chrome or intense black finish.
