Ameluna Pendant

by

Ameluna is a striking collaboration between Artemide and Mercedes-Benz Style, blending advanced lighting technology with sculptural elegance. Inspired by the moon, its transparent form and asymmetric volume create a dynamic presence in any space. The hidden LED system and patented aluminium band deliver pure, ambient light while preserving the lamp's clean silhouette. With RGBW capability and app control, Ameluna offers customisable atmospheres and intelligent interaction. A true fusion of beauty and innovation - made in Italy.
