

## Fato Wall / Table Lamp

by Gio Ponti

Fato is a timeless table and wall lamp that doubles as a sculptural object. Designed by Giuseppe Pagano in 1969, its geometric metal frame and cut-out panels create a play of light and shadow - offering both illumination and architectural presence. With its clean lines and modernist spirit, Fato suits a range of interiors, from minimalist to eclectic. A design classic that brings structure, light, and visual intrigue to any space.
