

Jeff Linear Pendant

by Pio and Tito Toso

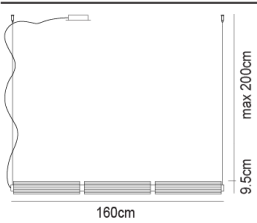

Designed by Pio and Tito Toso for Vistosi, the Jeff linear pendant joins three handmade Murano crystal elements end to end in a single horizontal suspension. Each element is shaped using rigadin, a traditional Venetian technique that works fine ribbed lines into the glass, scattering light from integrated LED sources along its length. The linear format comes in three compositions: three slender elongated forms, three tapered drops, or a central drop framed by two elongated elements. The choice ranges from a restrained profile to a more sculptural rhythm. Suited to dining tables, kitchen islands and reception counters, it spreads light across a long surface. When lit, Jeff traces fluid, rippling lines of light; when off, it stands as a glass sculpture in its own right. Available in a choice of metal frame finishes. Made in Italy by Vistosi.

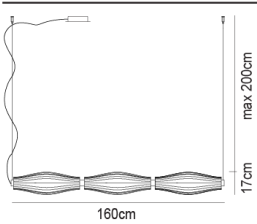

Designer	Pio and Tito Toso
Supplier	Vistosi
Country	Italy
SKU	VI JEFF-SP-LINEAR
Warranty	2yr commercial / 3yr residential
Size Options	SP 1, SP 2, SP 3
Metal Finish Options	Black Nickel, Copper, Gold
Version Options	2700K, 3000K
