Tolomeo Mega LED Floor Lamp

by Michele de Lucchi

A timeless icon of Italian design, the Tolomeo Mega LED Floor Lamp by Artemide was originally conceived by Michele De Lucchi and Giancarlo Fassina in 1987. Celebrated for its perfect balance of minimalist aesthetics and exceptional functionality, the Tolomeo's articulated aluminium arm uses an innovative spring mechanism to allow effortless adjustment in height and direction. The Mega version replaces the classic aluminium head with a generous fabric diffuser that casts a soft, ambient glow - available in parchment, grey satin, or black fabric, and offered in three shade sizes to suit the scale of any space. The structure is available in polished aluminium or black. This LED variant delivers the same iconic form with modern energy efficiency. Equally at home in expansive residential living rooms, hospitality venues, or commercial interiors, the Tolomeo Mega LED is part of one of the world's most awarded lighting collections. Made in Italy by Artemide.
