

## Timor Perpetual Calendar - Colour Matte Collection

by Enzo Mari

The Timor Colour Matte Collection perpetual calendar is a special edition from a collaboration between Artemide and Danese Milano, reintroducing Enzo Mari's 1967 design in an expressive new palette. Mari drew inspiration from railway signage for the Timor's form - its fan-like PVC elements pivot on a central pin within a single moulded ABS body, allowing day, month, and year to be selected at a glance. The typeface is Helvetica, chosen by Mari and Danese for its readability. Named after an Indonesian island - a tradition established by Danese founder Bruno Danese - the Timor reflects an era when plastic represented accessibility and democratic design. This special edition is available in five exclusive matte colour finishes: Light Blue, Blue Klein, Yellow, Lilac, and Green. Designed by Enzo Mari, made in Italy by Danese Milano.
